## Archaeological Field Director

7123 Pearl Road, Suite 107 ● Middleburg Heights, OH 44130 ● Phone: 440.845.7590 ● [cmustain@ascgroup.net](mailto:cmustain@ascgroup.net)

### PROFESSIONAL RESPONSIBILITIES

Field supervisory responsibilities include organizing and conducting archaeological fieldwork, compiling data, and assuring that the data is complete and correct. Typically, this involves, directly supervising ASC staff at all levels of archaeological research, and for larger survey efforts, serving as a field director, organizing and coordinating a group of supervisors or crew chiefs. These responsibilities usually extend to report preparation and occasionally to artifact processing and analysis. Digital data management is another important responsibility; a task that normally involves close coordination with clients who are maintaining a project database.

### Education

Case Western Reserve University,  
BA Anthropology  
1985

### Certifications

Field Supervisor: Ohio Historic Preservation Office; Kentucky Heritage Council

### EXPERTISE

- Thirty years of experience with ASC in the field, the majority of which are in a supervisory capacity.
- Field Supervisor on numerous Phase I, II, and III CRM projects in Ohio and surrounding states.
- Authored or co-authored Phase II, and Phase III reports for projects throughout Ohio and adjacent states, with responsibility for site documentation as well as artifact processing and analysis.

### SELECTED PROJECT EXPERIENCE

- ACR-UMTP Pipeline Project, in Ohio. Directed Field Supervisors for the Phase I Cultural Resources Surveys, compiled data, and co-authored reports.
- Combined Sewer Overflow (CSO) Storage Basin Project in the City of Akron, Summit County, Ohio. Served as Field Supervisor for Phase I Cultural Resources Surveys and co-authored reports.
