

Adrienne Di Ruzza

Senior Ecologist

CULTURAL • ENVIRONMENTAL • HAZARDOUS
EVALUATION & CONSULTING

PROFESSIONAL RESPONSIBILITIES

Ms. Di Ruzza specializes in environmental design and planning for federal, state, and local government projects. Her project experience includes rural and urban roadways, bridges, airports, mass transit systems, bikeways, multi-modal facilities, parks, military installations, and freight and commuter railroads. She has a host of experience in NEPA EA and EIS evaluations, environmental inventories, mitigation design and management, permitting, environmental assessments and impact statements, public involvement, and ecological restoration. She has also conducted and supervised wetland and forest stand delineations, long-term wetland mitigation monitoring and stream restorations.
